INDEPENDENT AUDITOR'S REPORT

The Board of Directors Ontario School District No. 8C Ontario, Malheur County, Oregon

We have audited the accompanying financial statements of the governmental activities, the internal service fund, each major fund and the aggregate remaining fund information of Ontario School District No. 8C as of and for the year ended June 30, 2012, which collectively comprise the district's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Ontario School District No. 8C's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the internal service fund, each major fund and the aggregate remaining fund information of Ontario School District No. 8C, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 31, 2012, on our consideration of the Ontario School District No. 8C's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to this required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Ontario School District No. 8C's financial statements as a whole. The combining and individual nonmajor fund financial schedules, required supplementary information, other supplementary information and other financial schedules listed in the financial section on the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is also presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The combining and individual nonmajor fund financial schedules, required supplementary information, other supplementary information, other financial schedules and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying introductory section, as listed in the table of contents, is presented for purpose of additional analysis and is not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

ONTARIO SCHOOL DISTRICT NO. 8C MANAGEMENT'S DISCUSSION AND ANALYSIS

For the fiscal year ended June 30, 2012

This section of Ontario School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended June 30, 2012. Please read it in conjunction with the District's financial reports, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's government-wide financial statements reflect assets of \$50.8MM and liabilities of \$33.3MM. Of the \$17.5MM in net assets, \$9.5MM is invested in capital assets, \$1.8MM is restricted for debt service, \$900K is restricted for special programs and \$5.3MM is unrestricted and available to meet the District's ongoing obligations.
- The District's Net Assets increased by \$1.7MM during the fiscal year.
- The District had \$28.9MM in expenses; \$7.7MM of these expenses were offset by program specific charges for services, grants or contributions. The remaining \$21.2MM is made up of General Fund revenues which consist primarily of taxes, state school support and earnings on investments.
- The District's governmental funds report combined ending fund balance of \$12.1MM. This is a \$9.9MM decrease compared to the prior year and is mostly due to the usage of bond funds available in prior year, but used for capital improvements in the current year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and notes to those statements to provide more detailed data. These statements are organized so the reader can understand the District as a financial whole, or as an entire operating entity.

The statement of net assets and the statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements also look at the District's most significant funds with all other nonmajor funds presented in total in a single column. The table below summarizes the main features of the District's financial statements.

Features of Government-Wide and Fund Financial Statements

1 0000	Government-Wide Statements	Fund Statements-Governmental Funds
Scope	Entire District (except fiduciary	The activities of the District that are not
_	funds)	proprietary or fiduciary

	received or paid	when goods or services have been received and
		payment is due during the year or soon after

ONTARIO SCHOOL DISTRICT NO. 8C MANAGEMENT'S DISCUSSION AND ANALYSIS

For the fiscal year ended June 30, 2012

Information is included to support and explain the data in the basic financial statements. Schedules include: Statement of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual for the General Fund and major special revenue funds (pages 41 – 45), Combining Balance Sheet – Nonmajor Governmental Funds, and Combining Schedule of Revenues, Expenditures, and Changes in Fund Balance-Non Major Funds.

Modified Accrual Accounting vs. Full Accrual Accounting

The following table shows the difference in modified accrual accounting, as done on past financial statements and full accrual accounting, as required by GASB 34.

	Modified Accrual	Full Accrual
Revenue	 Available and measurable Available within 60 days of year end Record revenue if payment is received during year or soon after (within 60 days) and is used to pay current year liabilities 	 Earned and measurable Earned is 'reasonably certain to be collected'
Expense	 Recognize in the accounting period in which the fund liability is incurred and measurable. 	 Recognize in the accounting period in which the liability is incurred and measurable.
	 Record expenditures: Outflow of cash, or promise to pay for goods and services that have been received. 	Records expenses: Decreases in net assets resulting from the using up of outflow of assets in the course of operating a district and providing goods and services

STATEMENT OF NET ASSETS AND STATEMENT OF ACTIVITIES

The statement of net assets and the statement of activities are designed to give the readers a broad overview of the District's finances. These statements include all assets and liabilities using the full accrual basis of accounting similar to the accounting system used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash was received or paid.

These statements report the District's net assets and changes in those assets. This change in net assets is important because it identifies whether the financial position of the District has improved or diminished for the District as a whole. The cause of this change may be the result of many factors, such as the District's property tax base, reduction in state school funds, facility conditions, and maintenance of effort requirements, school district enrollment, and other factors.

In the statement of net assets and the statement of activities, all District activities are classified as "Governmental Activities."

MAJOR FUND REPORTING

Fund Financial Statements

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds for fiscal year 2011-12 were the General Fund, the Bond Projects Fund, the Federal Programs Fund, and the Bond Debt Service Fund. All other funds are combined into a single, aggregated fund for presentation.

Governmental Funds

All of the District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs. The relationship, or differences, between governmental activities reported in the governmental funds balance sheet and statement of activities is reconciled in the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position. The district's net assets increased \$1.7MM for the period ending June 30, 2012 to \$17.5MM. This increase was attributed to an increase in capital assets net of related debt, an increase in unrestricted assets, and a decrease in assets restricted for debt service as compared to the prior year.

The District's assets totaled \$50.8MM. Prepaid pension contribution assets of \$10.1MM represent 20% of total assets. Capital assets net of accumulated depreciation, which consist of the District's land, buildings, building improvements, vehicles, and equipment, total \$23.2MM and comprise 46% of total assets. The remaining assets consist mainly of investments, cash, and receivables.

The District's total liabilities totaled \$33.3MM. The largest liability, \$18.5MM, is for the repayment of the Qualified School Construction bond. Current liabilities of \$4.8MM represent 14% of the district total liabilities. Current liabilities consist of payables on account, salaries and benefits, and the current portion of long-term debt and early retirement obligations.

A large portion of the District's net assets (54%) reflects its investment in capital assets (e.g. land, buildings, vehicles and equipment). The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

ONTARIO SCHOOL DISTRICT NO. 8C MANAGEMENT'S DISCUSSION AND ANALYSIS

REVENUES AND EXPENSES

Key components of governmental revenues and expenses for the year ending June 30, 2012 are as follows:

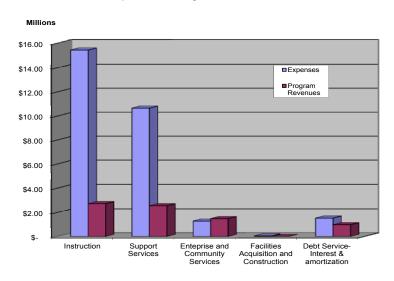

- Revenue from the State School Fund comprises the largest portion of the District's revenue. Unrestricted revenue from the State School Fund was \$16.6MM in 2011-12 compared to \$15.7MM in fiscal year 2010-11.
- Restricted Federal State Fiscal Stabilization Fund (SFSF) revenue increased by \$216K.
- Operating grants increased by \$1.1MM as a result of a Federal ARRA funds in the area of Title IA, IID and IDEA.
- Expenditures for government activities increased by \$1.56MM or 5.7% over the prior year, due in part to spending in association with increased Federal ARRA funds.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At June 30, 2012, the District's governmental funds reported combined ending fund balance of \$12.1MM, a decrease of \$9.9MM in comparison with the prior year. The decrease was due to the expenditures in Bond Projects Fund as we near the completion date.

General Fund. The General Fund is the chief operating fund of the district. As of June 30, 2012, unassigned fund balance was \$3.2MM. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance represents 15% of total General Fund expenditures, including transfers out and debt service. This fund balance percentage was unchanged from 15% in 2010-11 and 13% in 2009-10.

The fund balance increased by \$1.2MM during the current fiscal year. This was due to a slight increase in School Fund revenue as well as the usage of Federal School Fund Stability Funds. The District's share of State School Funds was \$520K more than projected in the 2011-12 Budget.

Bond Project. In 2011-12, the District spent \$12.4MM from this fund to begin renovations and construction at Ontario High School and at Ontario Middle School. The ending fund balance was \$4.8MM.

Federal Programs. The Federal Programs Fund is operated on a reimbursing basis. Revenues are considered earned when allowable expenditures are made. Any ending cash balance in this fund is considered deferred revenue. Any negative cash balances are considered an account receivable. For this reason, the Federal Programs Fund should never have ending fund balance. At June 30, 2012, the fund had accounts receivable of \$978K.

Bond Debt Service Fund. The Bond Debt Service Fund is used to collect property taxes levied for capital projects. There is a minimum reserve requirement that the District must meet annual and these reserved funds are held in this fund. The ending fund balance was \$1.7MM.

Nonmajor Governmental Funds. Food Services, State and Local Grants, Equipment Replacement, Technology, and Pension Bond Debt Service are all funds that are contained in the Nonmajor Governmental Funds category. Ending fund balance in Nonmajor Governmental Funds increased by \$180K which included an increase of \$100K in the Food Services Fund.

GENERAL FUND BUDGETARY HIGHLIGHTS

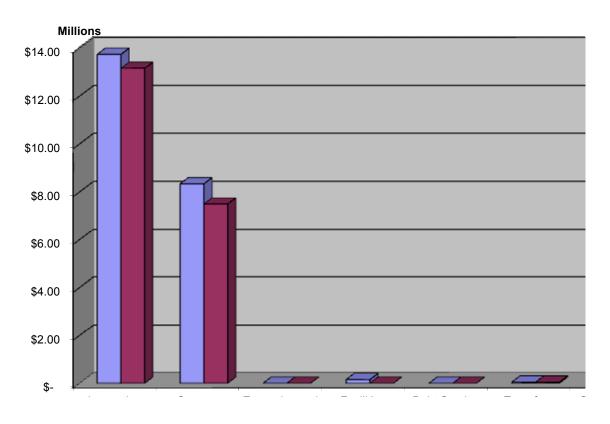

The District's budget is prepared according to Oregon law and is based on accounting for transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the 2011-12 fiscal year, the Board did adopt resolutions that affected the general fund budget.

For the General Fund, the final budget revenue basis was \$21,333,155. The actual amount of revenue received was \$21,948,698.

During the year, as shown in the chart below, General Fund expenditures were within budget.

Actual Expenditures vs. Final Budget - General Fund

ONTARIO SCHOOL DISTRICT NO. 8C MANAGEMENT'S DISCUSSION AND ANALYSIS

For the fiscal year ended June 30, 2012

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets. The District's investment in capital assets includes land, buildings and improvement, and vehicles and equipment. As of June 30, 2012 the District had invested approximately \$23.2MM in capital assets, net of depreciation, as shown in the following table.

ONTAI	CHOOL DISTR Capital Assets t of depreciation		NO. 8C		
	Government	tal Ac	tivities	(De	Increase ecrease) from
	 2012	Fiscal 2011			
Land	\$ 563,110	\$	563,110	\$	-
Contruction in progress	13,696,196		1,320,720		12,375,476
Buildings & building improvements	14,515,968		14,394,296		121,672
Vehicles, furniture and equipment	4,294,929		4,232,268		62,661
Accumulated depreciation	 (9,910,652)		(9,427,583)		(483,069)
TOTAL	\$ 23,159,551	\$	11,082,811	\$	12,076,740

Debt administration. At the end of the current fiscal year, the District had total bonded debt outstanding of \$27.1MM, consisting of pension obligation bonds net of unamortized discount, issued in October of 2002 to pay the unfunded actuarial liability to the Oregon Public Employees Retirement System and Qualified School Construction Bonds issued in July 2010 to pay for school construction and renovations.

During the current fiscal year, the bonded debt decreased by \$200K. The decrease was due to the required payments on the PERS bond payable.

CURRENT FINANCIAL ISSUES AND CONCERNS

The most significant economic factor for the District remains the State of Oregon's State School fund and the reorganization of the Education Service Districts (ESDs). For the year ended June 30, 2012, the State School Fund – General Support, provided 54% of the District's program resources. The current budget proposal from the governor includes a reduction of funding to the ESDs and how this will affect the services currently delivered to Ontario School District by the various ESDs that service the district remains to be seen.

The District is currently in the final year of School Improvement Grants for the High School. This grant has supplemented the General Fund in many areas and these supplements are no longer available beginning July 1, 2013.

In May 2011 the District finalized design and bid package data and solicited contractors for bids to commence the construction phase of the District's bond projects. Ontario Middle School 'Early Site Package' contracts were awarded in late May 2011 and work commenced in June 2011. The \$18.5MM bond, approved by the voters in May of 2010, will address some of the facility needs of the District. The bond proceeds are being used to build a new middle school building, a new science and technology wing at the high school, and improvements at district

schools. The new buildings opened up to students in the fall of 2012. As the projects wrap up, the District's students are at home in the new buildings and all remaining construction projects must be completed in May 2013.

In conclusion, the Ontario School District has committed itself to financial excellence, not only in past, but future years. The District's system of financial planning, budgeting and internal financial controls are firmly in place and the District plans to continue its sound fiscal management to meet the challenges of the future.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens and taxpayers with a general overview of the District's finances and demonstrate the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the District's Director of Finance at 195 SW 3rd Ave, Ontario, OR.

RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS

June 30, 2012

Total fund balances		\$ 12,069,892
Capital assets are not financial resources and therefore, are not reported in the governmental funds.		
Cost Accumulated depreciation	\$ 33,070,203 (9,910,652)	23,159,551
Pension assets not included in fund financial statements		10,123,868
Certain delinquent property taxes not collected for several months after year end is not considered available revenue and is deferred in the governmental funds.		403,372
The unamortized portion of issuance costs is not available to pay for current period expenditures and therefore, is not reported in the governmental funds.		244,256
The original issue discount on the bonds issued is not recorded on the fund financial statements, but is amortized over the life of the bond in the statement of net assets.		7,783
Internal service funds		228,914
Inventory not consumed within sixty days is not included in the fund financial statements.		76,382
Long-term liabilities not payable in the current year are not reported as governmental fund liabilities. Interest in long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due.		
Bonds payable	(27,131,259)	
Early retirement obligation Other Post Employment Benefits liability	 (637,755) (1,048,383)	 (28,817,397)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2012

Net change in fund balanced		\$ (9,994,081)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. Expenditures for capital assets Less current year depreciation	\$ 12,652,220 (637,151)	12,015,069
The fund financial statements report early retirement obligations as expended, however the statement of activities expenses only the net change in early retirement obligation.		
Investment earnings/(losses) on prepaid pension asset, not recorded in fund financial statements.		(540,262)
Long-term debt proceeds are reported as other financing sources in governmental funds. In the statement of Net Assets, however, issuing long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Assets. This is the amount by which proceeds exceeded repayments. Debt issued	(665,000)	121 204
Debt principal repaid	796,304	131,304
Governmental funds do not report the effects of the implementation of GASB Statements No. 45 and 50 which caused the recognition of new long term liabilities.		(254,967)
Governmental funds report the effect of issuance costs, premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences. Discount on bonds issued in current year Amortization of original issue discount Amortization of issuance costs on bonds issued	20,361 (476) (16,046)	3,839
Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied.		97,931
Inventory not consumed within sixty days is not included in the fund financial statements.		76,382
Internal service funds are used by the district to charge the costs of unemployment insurance to individual funds. The net activity of the internal service funds is reported with governmental activities.	100 151	
Internal service fund income Internal service fund expense	188,471 (53,846)	134,625
CHANGE IN NET ASSETS		\$ 1,669,840

NOTES TO THE BASIC FINANCIAL STATEMENTS

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

Note 1. Summary of Significant Accounting Policies

The administration of Ontario School District No. 8C is vested in a five member board of directors, a district superintendent and a director of finance.

The following is a summary of significant accounting policies utilized by the district in the preparation of the accompanying financial statements.

A. Reporting Entity

A five member board of directors exercises governance responsibilities over all entities related to public elementary and secondary school education within the jurisdiction of Ontario School District No. 8C as set by the state of Oregon. The board receives funding from local, state and federal sources. However, Ontario School District No. 8C is not included in any other governmental reporting entity as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards. Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations, and primary accountability for fiscal matters. No other entities met requirements for inclusion in Ontario School District No. 8C.

B. Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Assets and the Statement of Activities display information about the district. These statements include the governmental financial activities of the overall district, except fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues and charges for services.

The Statement of Net Assets present the district's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets results when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Eliminations have been made to minimize the double counting of internal activities in the Statement of

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

Activities. Program revenues include: (1) charges to students or others for tuition, fees, rentals, materials, supplies or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes and state support, are presented as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Net assets are reported as restricted when constraints placed on net asset use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Fund Financial Statements

The fund financial statements provide information about the district's funds including those of a fiduciary nature. Separate statements for each fund category-(governmental, proprietary, and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

The district reports the following major governmental funds:

<u>General Fund</u> - The General Fund is the general operating fund of the district. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Bond Projects Fund</u> – The Bond Projects Fund accounts for the usage of bond proceeds received for major building renovations and construction. Principal revenue sources are proceed from debt.

<u>Federal Programs Fund</u> – Federal Programs Fund are special revenue funds used to account for the proceeds of specific federal revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

<u>Bond Debt Service Fund</u> – The Bond Debt Service Fund accounts for the property taxes levied for school improvement projects. These funds are legally restricted to the repayment of the school improvement bonds.

Additionally, the district reports the following fund types:

<u>Debt Service Fund</u> - The debt service fund account for the payment of principal and interest on the district's bonds used for financing of unfunded actuarial liability pension debt. The principal source of revenue is general fund transfers.

<u>Special Revenue Funds</u> - Special revenue funds account for revenue sources that are legally restricted to expenditures for specified purposes (other than major capital projects).

<u>Capital Projects Funds</u> – Capital projects funds account for revenue and expenditures related to major repairs, renovations, and construction of the district buildings.

ONTARIO SCHOOL DISTRICT NO. 8C Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

C. Measurement Focus and Basis of Accounting

Government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the district gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Under terms of grant agreements, the district funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the district's policy to first apply restricted cost-reimbursement grant resources to such programs and then to general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (when they are "Measurable" means the amount of the transaction can be measurable and available). determined and "available" means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The district considers property taxes as available if they are collected within 60 days after year end. A one year availability period is used for revenue recognition for all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt, which is recognized when the obligations are expected to be liquidated with expendable available financial resources. Property taxes, interest and special assessments are susceptible to accrual. Other receipts and taxes become measurable and available when the cash is received by the government and are recognized as revenue at that time. Entitlements and shared revenues are recorded at the time of receipt or earlier if the "susceptible to accrual" criteria are met. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Proprietary fund financial statements include a Statement of Fund Net Assets, a Statement of Revenues, Expenses and Changes in Fund Net Assets, and a Statement of Cash Flows for each major proprietary fund and non-major funds aggregated. A column representing internal service funds is also presented in these statements. However, internal service balances and activities have been combined with the governmental activities in the government-wide financial statements. Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and the proprietary fund financial statements to the extent they do not conflict or contradict guidance of the GASB.

Governments also have the option of following subsequent private sector guidance for their business type activities and enterprise funds. The district has elected to not follow subsequent private sector guidance.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

noncurrent) are included on the Statement of Net Assets. The Statement of Revenues, Expenses and Changes in Fund Net Assets presents increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

Internal Service Fund – The internal service fund accounts for the district's self-insured unemployment fund. Principal revenues are payments from the general fund and special revenue funds. Principal expenses are reimbursement of unemployment claims to the Oregon Employment Department.

D. Budgets and Budgetary Accounting

A budget is prepared for each district fund in accordance with the modified accrual basis of accounting and legal requirements set forth in the Oregon local budget law. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Total instruction, support services, community services, interagency/fund transactions, contingencies and debt service by fund are the levels of control. The detail budget document, however, is required to contain more specific, detailed information for the above mentioned expenditure categories. Appropriations lapse at June 30.

Unexpected additional resources may be added to the budget using a supplemental budget and appropriations resolution. A supplemental budget may require hearings before the public, publications in newspapers and approval by the board of directors. Original and supplemental budgets may be modified by the use of appropriations transfers between the levels of control. Such transfers require approval by the board of directors.

The budget for the General Fund and special revenue funds includes capital outlay expenditures in each program for capital outlay applicable to that program.

E. Property Taxes Receivable

Property taxes assessed in prior years, but not yet collected or accrued, are reported on the balance sheet, but are offset by deferred revenue accounts. The district levies taxes on a fiscal year from July 1 to June 30. The current levy becomes a lien on July 1. Taxes are due November 15, and become delinquent May 15. Foreclosure is started three years after taxes become delinquent. The district turns all tax collection duties over to Malheur County, Oregon.

Uncollected property taxes are recorded on the statement of net assets. Uncollected taxes are deemed to be substantially collected or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the district.

The government reports deferred revenues on its governmental fund balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

received by the district before it has legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the district has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

F. Capital Assets

Capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The district defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one reporting period. Interest incurred during construction is not capitalized. The cost of normal maintenance and repairs that do not add value to the asset or materially extend asset lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and improvements Equipment

10 to 50 years 5 to 30 years

G. Accumulated Unpaid Vacation, Sick Pay, and Other Employee Benefit Amounts

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. The district's policy is that all accrued vacation lapses if not taken by June 30 of each year. In accordance with the provisions of Governmental Accounting Standards Board Statement No. 16, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. Unpaid sick pay lapses upon termination of employment.

H. Deposits and Investments

Ontario School District No. 8C's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. All short-term cash surpluses are maintained in savings accounts and the Oregon State Treasury Local Government Investment Pool and allocated to each fund based on the amount of excess cash each fund has deposited.

Oregon statutes and local ordinances authorize the district to invest (short-term and long-term) in certificates of deposit (considered investments for risk categorization purposes), certain bond obligations of civil subdivisions, general obligations of the United States, U.S. agency issues, general obligations of the states of Oregon, Washington, Idaho and California, certain interest bearing bonds of a county, port or school district, certain interest bearing bonds on any city in the state of Oregon, life insurance and annuity contracts, pooled deferred compensation trusts, banker's acceptances, and certain corporate bonds.

I. Encumbrances

The district does not use encumbrance accounting.

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

J. Inventory

The costs of inventories that are not consumed within sixty days in governmental fund types are recorded as expenditures when purchased and as inventory in the government-wide statements. Inventories are valued at cost using the first in first out method.

K. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as "interfund receivables and payables." Interfund receivables and payables between funds are eliminated in the Statement of Net Assets.

L. Interfund Transfers

Permanent reallocation of resources between funds of the reporting entity are classified as interfund transfers. For the purpose of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

M. Statements of Cash Flows

For purposes of the Statement of Cash Flows, the district considered all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. All cash and investments of the proprietary fund types are pooled with the district's pooled cash and investments.

N. Use of Estimates

The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States of America. Management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. These estimates include assessing the collectability of accounts receivable, the use and recoverability of inventory, and the useful lives and impairment of tangible and intangible assets, among others. Actual results could differ from those estimates.

O. Fund Balances

GASB Statement No. 54 requires analysis and presentation of fund balances in five categories; the fund balance categories are:

- *Nonspendable*—Includes items not immediately converted to cash, such as prepaid items, interfund receivables and inventory.
- Restricted—Includes items that are restricted by external creditors, grantors or contributors, or restricted by legal constitutional provisions.
- Committed—Includes items committed by the district's board of directors, by formal board action.

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

- Assigned—Includes items assigned for specific uses, authorized by the district's superintendent and/or Director of Finance.
- Unassigned—This is the residual classification used for those balances not assigned to another category.

The board authorized the Superintendent and the Director of Finance to make assignments of ending fund balance. Assignments of fund balances can be done at any time, including after fiscal year end date

Finally, GASB 54 requires a spending policy, as it relates to ending fund balance. The spending policy states in what order fund balance categories are spent. The board approved the following fund balance order of spending policy:

- 1. Restricted Fund Balance
- 2. Committed Fund Balance
- 3. Assigned Fund Balance
- 4. Unassigned Fund Balance

Note 2. Retirement Plan - Public Employees Retirement System (PERS)

Plan Description - The district contributes to two pension plans administered by the Oregon Public Employees Retirement System (PERS). The Oregon Public Employees Retirement Fund (OPERF) applies to the district's contribution for qualifying employees who were hired before August 20, 2003, and is a cost-sharing multiple-employer defined benefit pension plan. The Oregon Public Service Retirement Plan (OPSRP) is a hybrid successor plan to the OPERF and consists of two programs: The Pension Program and defined benefit portion of the plan, applies to qualifying district employees hired after August 20, 2003. Benefits are calculated by a formula for members who attain normal retirement age. The formula takes into account final average salary and years of service. Beginning January 1, 2004, all PERS member contributions go into the Individual Account Program (IAP), the defined contribution portion of the plan. PERS members retain their existing PERS accounts, but any future member contributions are deposited into the member's IAP, not the member's PERS account.

Both PERS plans provide retirement and disability benefits, post employment healthcare benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PERS is administered under Oregon Revised Statute Chapter 238, which established the Public Employees Retirement Board as the governing body of PERS. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to PERS, PO Box 23700, Tigard, OR, 97281-3700 or by calling 503-598-7377.

Funding Policy – Members of PERS are required to contribute 6% of their salary covered under the plan, which is invested in the OPSRP Individual Account Program. Per negotiated contract the district "picks up" the employee portion. The district is required by ORS 238.225 to contribute at an actuarially determined rate for the qualifying employees under the OPERF plan, and a general service rate for the qualifying employees under the OPSRP plan. The OPERF and the OPSRP rates in effect for the year ended June 30, 2012 were 13.39% and 11.88% respectively. The contribution requirements for plan members are established by ORS Chapter 238 and may be amended by an act of the Oregon Legislature.

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

Annual Pension Cost – The district's contributions to PERS for the years ending June 30, 2010, 2011, and 2012 were \$2,259,192, \$2,270,856 and \$3,101,326 respectively, which equaled the required contribution for the year. During the 2002-03 year, the district issued limited tax pension bonds, the proceeds of which were used to finance a portion of its estimated unfunded actuarial liability.

Pension Asset – The pension asset is the result of the transfer of the district's pension bond proceeds to PERS to cover a portion of the district's share of the cost sharing plans unfunded actuarial liability. This pension asset is being used to pay a portion of the district's annual required contribution. The balance as of the last available valuation on December 31, 2012 was \$10,123,868, being held in a side account at PERS.

Note 3. Accounts Receivable

Accounts receivable are comprised of the following at June 30, 2012:

Fund	Revenue Source	 Amount
General Fund	Property Taxes	\$ 376,304
General Fund	Federal Grants	204,756

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

Note 6. Deposits and Investments

Cash and Investments

The district maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net assets as cash and investments.

Cash and investments are comprised of the following at June 30, 2012:

 Deposits with banks
 \$ 5,348,828

 Investments
 10,039,075

 Cash on hand
 1,070

 \$ 15,388,973

Cash and investments are shown on the basic financial statements as:

Statement of Net Assets

Cash and investments \$ 15,388,973 \$ 15,388,973

As of June 30, 2012, the district held the following investments and maturities:

		70 01
		Investment
Investment Type	Fair Value	Portfolio
Local Government Investment Pool	\$ 10,039,075	100%

% of

Deposits

The Governmental Accounting Standards Board has adopted accounting principles generally accepted in the United States of America (GAAP), which include standards to categorize deposits to give an indication of the level of custodial risk assumed by the district at June 30, 2012. If bank deposits at year end are not entirely insured or collateralized with securities held by the district or by its agent in the district's name, the district must disclose the custodial credit risk (below) that exists. Deposits with financial institutions are comprised of bank demand deposits. For deposits in excess of federal depository insurance, Oregon Revised Statutes require depository institutions to be in compliance with ORS 295.

At June 30, 2012 the carrying amount of the district's deposits (cash and certificates of deposit) in various financial institutions was \$5,348,828 and the bank balances were \$5,838,926. Of these deposits, all were covered by federal depository insurance. The insurance and collateral requirements for deposits are established by banking regulations and Oregon law. Federal depository insurance (FDIC) of \$250,000 applies to the deposits in each depository. Where balances continually exceed \$250,000, ORS 295.018 requires the depositor to verify that deposit accounts are only maintained at financial institutions on the list of qualified depositories found on the Oregon state treasurer's website. Qualifying depository banks must pledge securities with a particular value based on the banks level of capitalization. At June 30, 2012 and for the year then ended, the district's deposits were in compliance with the requirements of ORS 295.018.

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

Custodial credit risk – Custodial credit risk for deposits is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The district mitigates custodial credit risk for deposits by investing only in fully collateralized items.

Effective July 1, 2008, House Bill 2901 created a shared liability structure for participating bank depositories in Oregon. Barring any exceptions, a qualifying bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of their quarter-end public fund deposits if they are adequately capitalized, or 110% of their quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public bank depositories is available to repay the deposits of public funds of governmental entities.

Investments

At June 30, 2012, the district held \$10,039,075 of investments, which is all classified as cash and investments on the Statement of Net Assets. The district has no policy for managing interest rate risk or credit risk.

The district has invested funds in the Oregon Short-term Fund Local Government Investment Pool (LGIP) during fiscal year 2012. The Local Government Investment Pool was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). The Local Government Investment Pool is an external investment pool managed by the state treasurer's office, which allows governments within the state to pool their funds for investment purposes. The amounts invested in the pool are not classified by risk categories because they are not evidenced by securities that exist in physical or book entry form as defined by GASB Statement No. 40. The Oregon LGIP is unrated for credit quality.

In addition, the Oregon LGIP distributes investment income on an amortized cost basis and participant's equity in the pool is determined by the amount of participant deposits, adjusted for withdrawals and distributed income. Accordingly, the adjustment to fair value would not represent an expendable increase in the district's cash position.

Investments in the Oregon LGIP are made under the provisions of ORS 194.180. These funds are held in the district's name and are not subject to collateralization requirements or ORS 295.018. Investments are stated at cost, which approximated fair value.

A separate financial report for the Oregon Short-term Fund Local Government Investment Pool is prepared by the Secretary of State Audits Division in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Copies of the report can be obtained from the Oregon Audits Division 255 Capitol Street NE, Suite 500, Salem, OR 97310 or online at http://www.sos.state.or.us/audits/index.html.

Oregon statutes restrict the types of investments in which the district may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the Oregon Local Government Investment Pool (LGIP). As of June 30, 2012 and for the year then ended, the district was in compliance with the aforementioned Oregon statutes.

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State statutes authorize the district to invest primarily in general obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool, among others. The district has no formal investment policy that further restricts its investment choices.

Concentration of Credit Risk – Concentration of credit risk is the risk of a loss attributed to the magnitude of a government's investment in a single issuer. The district is required to provide information about the concentration of credit risk associated with its investments in one issuer that represents 5 percent or more of the total investments, excluding investments in external investment pools or those issued and explicitly guaranteed by the United States Government. The district has no such investments.

Interest Rate Risk – The district has no formal investment policy that explicitly limits investment maturities as a means of managing its exposure to fair value loss arising from increasing interest rates.

Foreign Currency Risk – The district is prohibited from investments that are not US dollar-denominated; therefore, the district is not exposed to this risk.

Note 7. Other Post Employment Benefits (OPEB)

Early Retirement Incentive Plan

The district has established an early retirement incentive plan. The plan is a single employer defined benefit pension plan available to teachers and administrators.

Eligibility:

Retirees must meet the following criteria:

- Retiring as an administrator employee with at least seven consecutive years of continuous, full-time service with the district or
- Retiring as a certified employee having completed at least twenty years of teaching, of which twelve years of service must be with the district <u>and</u>
- Retired from active service while eligible to receive a pension benefit from Oregon PERS.

Benefits payable:

Administrator retirees are eligible to receive a monthly stipend of \$300 for up to seven years. The benefit stops when the retiree dies or upon reemployment with the district.

Certified retirees are eligible to receive a monthly stipend of \$250 for seven years. If the retiree dies, the spouse will continue to receive payments until such time the retiree would have received the stipend for seven years. Payments cease after the retiree reaches age 65.

The district pays an additional 7.65% FICA tax on stipend benefits, unless the stipend is used to pay medical insurance premiums covered under the district's Section 125 cafeteria plan.

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

A one-time early retirement incentive was made available to certified retirees who retired on June 2, 2011. This incentive provides the retirees with an additional \$700 per month payable until August 21, 2013 and is in addition to the other stipend benefits described above.

Annual Required Contribution and Net Pension Obligation

The district has chosen not to fund the net pension obligation, but rather will continue to pay retirees their benefits as the benefits become due. The actuarial present value of plan benefits is as follows. First, at June 30, 2012, the obligation is as follows:

	June 30,	June 30,
	2012	2011
Determination of Annual Required Contribution		
(1) Normal Cost at year end	\$ 30,126	\$ 30,126
(2) Amortization of UAAL	352,572	394,321
(3) Annual Required Contribution (ARC)	382,698	424,447
Determination of Net OPEB Obligation		
(4) Annual Required Contribution (ARC)	382,698	424,447
(5) Interest on prior year Net OPEB Obligation	25,343	23,226
(6) Adjustment to ARC	335,921	307,868
(7) Annual Pension Cost	72,120	139,805
Less		
(8) Expected Stipend Payments	67,931	86,895
(9) Increase in Net OPEB Obligation	4,189	52,910
(11) Net OPEB Obligation - beginning	633,566	580,656
(12) Net OPEB Obligation - ending	\$ 637,755	\$ 633,566

The following table shows the annual pension cost and net pension obligation for the prior two years and the current fiscal year assuming the district does not fund this liability:

	Annual	Percentage of	
Fiscal Year	Pension	Pension Cost	Net Pension
Ending	Cost	Contributed	Obligation
June 30, 2010	\$ 160,697	67%	\$ 580,656
June 30, 2011	139,805	62%	633,566
June 30, 2012	72,120	94%	637,755

Health Care Benefits

The district implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, for the fiscal year ended June 30, 2009. This implementation allows the district to report its liability for other postemployment benefits consistent with newly established generally accepted accounting principles to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements.

The district is required by Oregon Revised Statute 243.303 to provide retirees with group health and

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

dental insurance from the date of retirement to age 65 at the same rate provided to current employees. Retired employees may continue enrollment in the health plan on a self-pay basis until age 65.

The district's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the district, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the district's normal cost each year and amortize any unfunded actuarial liabilities over a period of 15 years. The following table shows the components of the district's annual OPEB costs for the year, the amount actually contributed to the plan, and changes in the district's OPEB obligation to the plan.

	June 30,	June 30,
	2012	2011
Determination of Annual Required Contribution		
(1) Normal Cost at year end	\$ 268,427	\$ 253,712
(2) Amortization of UAAL	276,132	267,133
(3) Annual Required Contribution (ARC)	544,559	520,845
Determination of Net OPEB Obligation		
(4) Annual Required Contribution (ARC)	544,559	520,845
(5) Interest on prior year Net OPEB Obligation	31,904	22,055
(6) Adjustment to ARC	(54,204)	(37,472)
(7) Annual OPEB Cost	522,259	505,428
Less		
(8) Explicit Benefit Payments	-	-
(9) Implicit Benefit Payments	271,481	259,209
(10) Increase in Net OPEB Obligation	250,778	246,219
(11) Net OPEB Obligation - beginning	797,605	551,386
(12) Net OPEB Obligation - ending	\$ 1,048,383	\$ 797,605

The following table shows the annual pension cost and net pension obligation for the prior two years and the current fiscal year assuming the district does not fund this liability:

	Annual	Percentage of	
Fiscal Year	Pension	Pension Cost	Net Pension
Ending	Cost	Contributed	Obligation
June 30, 2010	\$ 525,520	48%	\$ 551,386
June 30, 2011	505,428	51%	797,605
June 30, 2012	522,259	52%	1,048,383

Actuarial assumptions of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial methods and assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

include the types of benefits provided at the time of each valuation and the historical matter of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

In the June 30, 2012 actuarial valuation "the projected unit credit cost method" was used. The actuarial assumption was a 3.5% investment rate of return (net of administrative expenses). Medical and prescription drugs premium increase of 7.25% in the first year, 7.5% in the second year, 6.75% in the third year, 6.0% in the fourth year, 5.75% in the fifth through 23rd year, 5.50% in the 24th through 27th year, and then 5.25% thereafter. The annual healthcare cost trend rate of 5.25% for dental and vision insurance premiums. The UAAL (Unfunded Actuarial Accrued Liability) is being amortized as a level percentage of projected payroll on a closed basis over a period of fifteen years.

Note 8. Long-term Debt Early Retirement Obligation

The following represents changes in long-term liabilities that are not reported as fund liabilities (i.e., debt of the trust and agency funds) but are reported on the government-wide financial statements. Current requirements for principal and interest expenditures are accounted for in the Debt Service Funds.

	Early Retirement Obligations	
Amounts Payable in Fiscal Year:		
2012-13	\$	170,195
2013-14		90,910
2014-15		66,366
2015-16		55,386
2016-17		38,323
2018 and thereafter		16,955
Total	\$	438,136

	Early Retirement Obligations		
Balance 7/1/11	\$ 633,566		
Additions	-		
Payments & deletions	(195,431)		
Balance 6/30/12	\$ 438,136		

All long-term debt obligations are payable from the general and debt service funds.

(1) The maturity schedule of cumulative amount of early retirement obligations in excess of amounts funded has not been determined.

Note 9. PERS UAL Bonds Payable

On October 9, 2002, the district issued \$9,513,783 in limited tax pension bonds to finance the unfunded pension liability to the Oregon Public Employees Retirement System. These bonds have interest rates that range from 2.06 to 6.10 percent. Interest payments are to be made semiannually

Ontario, Malheur County, Oregon

NOTES TO THE BASIC FINANCIAL STATEMENTS

June 30, 2012

on June 30 and December 30. Principal payments are to be made on June 30 of each year. Debt service is financed by a self-imposed pension expense based on a percentage of payroll costs.

	PERS UAL
	Bonds Payable
Balance 7/1/11	\$ 8,762,563
Additions	-
Payments	796,304
Balance 6/30/12	\$ 7,966,259

The debt service requirements to maturity on June 30, 2028 are as follows:

Fiscal Year Ending June 30,	Principal		Interest	Interest Rate
2013	\$ 170,96	7	\$ 590,850	5.18%
2014	178,03	5	508,673	5.36%
2015	185,86	2	540,845	5.51%

2027-2028	590,00	0	32,745	5.55%
Total	\$ 7,966,25	9	\$ 6,744,325	:

Interest expense for the year ended June 30, 2012 was \$455,404

On August 11, 2011 the district participated in a partial redemption of the 2002 PERS Series B obligation bond. The district's portion of the bond refinance was \$655,000 and was refinanced over a ten year period beginning in the 2011-2012 fiscal year. The refinanced bond is referred to as the 2011 PERS Series B. The agreement will reduce the PERS debt by \$48,719 over the duration of the bonds. The debt service requirements to maturity on June 30, 2021 are as follows:

Fiscal Year Ending June 30,	P	rincipal	Interest	Interest Rate
2013	\$	-	\$ 27,365	4.12%
2014		-	27,365	4.12%

2018-2021	8,824
Totals	\$19,004

Note 10. Qualified School Construction Bond

On May 18, 2010 the voters in the district approved a \$18,500,000 bond for new construction and capital improvements. The general obligation bonds were sold on July 21, 2010 using the Qualified School Construction Bond (QSCB) program. The bonds have a fixed interest rate of 5.584%, but the federal government will pay 5.27% of the interest cost on the bonds. Interest is due and payable on December 15th and June 15th of each year. Principal is due at maturity on June 15, 2027, funds are to be set aside in a dedicated account for this future principal payment. Future set aside amounts as of June 30, 2012 are as follows:

Year Ending	Deposit	Federal Subsidy					
June 30,	Requirement	Interest	for Interest	Total			
2013	\$ 890,000	\$ 1,033,040	\$ (974,950)	\$ 948,090			
2014	935,000	1,033,040	(974,950)	993,090

Note 11. Risk Management

Ontario School District No. 8C is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The district assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

GASB 54 implementation required Board approved action to authorize commitments of fund balances. These commitments, outlined in the table above, were approved by the board of directors on June 21, 2012. Commitments of fund balances must be made prior to the end of the fiscal year.

Note. 13. Restatement

In the prior year, the following were restated:

The Student Body Fund beginning fund balance was increased by \$87,893 to account for this funds inclusion in the financial statements as a special revenue fund instead of an agency fund as in the past.

The Federal Programs Fund beginning fund balance was increased by \$29 to account for the reversal of indirect expenses in excess of available grant funds in 2010-11. The result is a beginning fund balance of \$0 instead of \$(29).

Note 14. Deficit Fund Balance

At June 30, 2012, the Federal Programs Fund had a negative fund balance of \$11,859. This fund deficit will be eliminated by a request of funds submitted to Oregon Department of Education in fiscal year 2012-13 or a reduction to indirect fees charged.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY REPORTING

June 30, 2012

In accordance with the State of Oregon, the Board of Education annually adopts a budget following required public notice and hearing for all funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The district's budget is prepared on the modified accrual basis. Encumbrances are not recognized on the modified accrual basis budget and appropriations lapse at year end. This method of accounting contains all information needed for GAAP presentation and no additional reconciliation is required.

Formal and legal budgetary control for the certified budget is based upon major classes of expenditures known as functions within fund. These functions include expenditures for instruction, support services, community services, capital acquisitions, and other uses. Although the budget document presents function expenditures or expenses by line item within fund, the legal level of control is at the aggregated fund and functional level.

During the year ended June 30, 2012, we noted a couple minor procedural violations. In addition, there were also the following budget violations due to overexpenditure:

Debt Service Funds

Other uses \$632,665 Supporting services 20,347

Student Body Fund

Instruction \$70,596

Ontario, Malheur County, Oregon

⁽¹⁾ ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Aggregates are governed by real market values of all taxable properties within the district based on the following:

Allowable percentage of real market value:

A. Ki	ndergarten through eighth grade, 9 x .0055	4.95%
B. Ni	nth through twelfth, 4 x .0075	3.00%
Al	lowable percentage	7.95%

A. For each grade from kindergarten to eighth for which the district operates schools, fifty-five one hundredths of one percent of the real market value.

B. For each grade from ninth to twelfth for which the district operates schools, seventy-five one hundredths of one percent of the real market value.

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors Ontario School District No. 8C Ontario, Malheur County, Oregon

We have audited the basic financial statements of Ontario School District No. 8C as of and for the year ended June 30, 2012, and have issued our report thereon dated December 31, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Ontario School District No. 8C's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions, and repayment
- Budgets legally required (ORS Chapter 294)
- Insurance and fidelity bonds in force or required by law
- Programs funded from outside sources
- Authorized investment of surplus funds (ORS Chapter 294)
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C)
- State school fund factors and calculation

In connection with our testing nothing came to our attention that caused us to believe Ontario School District No. 8C was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-230 Internal Control

In planning and performing our audit, we considered Ontario School District No. 8C's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ontario School District No. 8C's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Ontario School District No. 8C's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the district's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

We noted certain matters that we reported to management of Ontario School District No. 8C in a separate letter dated December 31, 2012.

This report is intended solely for the information and use of the board directors, management, others within the district, the Oregon Secretary of State, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

AUDIT COMMENTS AND DISCLOSURES REQUIRED BY THE STATE OF OREGON

June 30, 2012

Oregon Administration Rules 162-10-200 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the secretary of state in cooperation with the Oregon State Board of Accountancy, require certain comments and disclosures relating to the audit of fiscal affairs and compliance with legal requirements. Comments relating to significant accounting policies, organization, fund structure, cash security and investments are included in the notes to financial statements. Other required comments and disclosures relating to this audit are set forth below.

Accounting Systems and Control Structure

The organizational structure of the district provides sound accounting policies for maintaining an adequate and effective system of accountability and responsibility of funds. The accounting records are being maintained in a satisfactory manner, which offers an adequate system of reporting to interested parties and compliance with legal requirements. We noted however, that the school secretaries perform certain functions incompatible with preferred internal control procedures, such as recording revenues, signing checks and performing account reconciliations for the student body funds.

Where possible the district has maintained a plan of organization encompassing methods and measures on internal control to safeguard its assets, check the accuracy and reliability of its accounting data, promote operational efficiency, and carry out board policies. We believe an adequate and effective method of internal control is maintained within the limits afforded by a small office staff.

As we have stated in the following report on compliance and on internal control over financial reporting in accordance with *Government Auditing Standards*, we do not express an opinion on the district's effectiveness in those areas. However, we did note certain matters that we reported to management in a separate letter dated December 31, 2012.

Indebtedness

Our review disclosed no conditions which we considered to be matters of noncompliance with the statutory and charter requirements relating to debt.

Budgets

Our review of the 2011-2012 and 2012-2013 budgets indicate the district has substantially complied with local budget law during the preparation and adoption of those budgets. The district appropriates its budget at the function level for legal purposes. During the year ended June 30, 2012, we noted some minor procedural violations. In addition, there were also the following budget violations due to overexpenditure:

Debt Service Funds

Other uses \$632,665 Support services 20,347

Student Body Fund

Instruction \$ 70,596

Ontario, Malheur County, Oregon

AUDIT COMMENTS AND DISCLOSURES REQUIRED BY THE STATE OF OREGON

June 30, 2012

Insurance and Fidelity Bond Coverage

We have examined the policies relating to insurance and fidelity bond coverages and ascertained such policies appear to be in force and that they appear to satisfy bond ordinances and other provisions. The district has complied with the provisions of Oregon statutes in respect to bonding of board members and employees. We are not competent, by training, to state whether the insurance policies in force at June 30, 2012 provide adequate coverage. We understand that the coverages are reviewed periodically with the district's agent of record and that such reviews have been made recently.

Programs Funded from Outside Sources

We have audited the records and financial reports for district grants and made such tests, to the extent deemed appropriate, for the programs in which the district participates. Based on our audit, we found that for the items tested, Ontario School District No. 8C complied with the material terms and conditions of the federal and state grant contracts and agreements. Further, based on our audit, nothing came to our attention to indicate that Ontario School District No. 8C had not complied with the material terms and conditions of federal and state grant contracts and agreements which were not specifically tested. Each grant is subject to audit by the grantor agency and any adjustments may become a liability of the appropriate fund.

Public Contracts and Purchasing

Our review of district operations indicates the district complies with state statutes relating to public contracting.

Collateral

Ontario School District No. 8C bank balances of deposit at June 30, 2012, were entirely insured or collateralized with the Federal Deposit Insurance Corporation or invested in approved financial institutions. The balances throughout the year were in compliance with Oregon Revised Statute 295.

Investments

We have reviewed the district's compliance with state statutes regarding the investment of surplus public funds. Our review disclosed no conditions that we considered being matters of noncompliance.

Highway Funds

During the fiscal year ended June 30, 2012, the district did not receive state highway funds.

State School Fund

We have reviewed average daily membership and other information supplied to the State of Oregon Department of Education. We find that the district is substantially compliant with legal requirements as stated in ORS 327.013 and as further defined by the Oregon State Department of Education pertaining to the district's calculation and reporting of the factors used to compute the State School Fund distribution.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended June 30, 2012

Note A. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Ontario School District No. 8C, and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some of the amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

Note B. Interest Subsidy of Interest on Qualified School Construction Bonds

The Internal Revenue Service pays a portion of the interest due on the Qualified School Construction Bonds. This amount is considered federal revenue; however, it does not have a CFDA number and therefore, is not included on the Schedule of Expenditures of Federal Awards. The amount of revenue and corresponding interest for the fiscal year ending June 30, 2012 is \$974,950.

Ontario, Malheur County, Oregon

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

June 30, 2012

SUMMARY OF AUDITOR'S RESULTS

Type of Report Issued

In our report for Ontario School District No. 8C, our opinion was unqualified.

Significant deficiencies in Internal Control

Our audit of the financial statements of Ontario School District No. 8C did not disclose any significant deficiencies in internal control.

Noncompliance Material to Financial Statements

Our audit of the financial statements of Ontario School District No. 8C did not disclose any noncompliance which is material to the financial statements.

Significant Deficiencies in Internal Control Over Major Programs

Our audit of the financial statements of Ontario School District No. 8C did not disclose any significant deficiencies in internal control over major federal programs.

Type of Report Issued on Compliance for Major Programs

We have issued an unqualified opinion on compliance with requirements applicable to each major federal program.

Audit Findings

Our audit of Ontario School District No. 8C did not disclose any audit findings that we are required to report in accordance with OMB Circular A-133.

Identification of Major Programs

U.S. Department of Education (passed through Oregon Department of Education)

Title IA	84.010	\$ 1,351,075

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Ontario School District No. 8C Ontario, Malheur County, Oregon

We have audited the financial statements of the governmental activities, the internal service fund, each major fund, and the aggregate remaining fund information of Ontario School District No. 8C, as of and for the year ended June 30, 2012, which collectively comprise Ontario School District No. 8C's basic financial statements and have issued our report thereon dated December 31, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Ontario School District No. 8C's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Ontario School District No. 8C's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Ontario School District No. 8C's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the district's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ontario School District No. 8C's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of

our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Ontario School District No. 8C, in a separate letter dated December 31, 2012.

This report is intended solely for the information and use of the management, board of directors, others within the district, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROLOVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Directors Ontario School District No. 8C Ontario, Malheur County, Oregon

Compliance

We have audited Ontario School District No. 8C's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Ontario School District No. 8C's major federal programs for the year ended June 30, 2012. Ontario School District No. 8C's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Ontario School District No. 8C's management. Our responsibility is to express an opinion on Ontario School District No. 8C's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Ontario School District No. 8C's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Ontario School District No. 8C's compliance with those requirements.

In our opinion, Ontario School District No. 8C, complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of Ontario School District No. 8C is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Ontario School District No. 8C's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.

Accordingly, we do not express an opinion on the effectiveness of Ontario School District No. 8C's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the management, board of directors, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
